Craig Purdon, Project Manager
Communications Alliance Ltd
PO Box 444, Milsons Point NSW 1565

By email: c.purdon@commsalliance.com.au

Dear Craig,

Re: Communications Alliance request for comment on scheduled review of C564:2011 Mobile Phone Base Station Deployment Industry Code

Thank you for the invitation to comment on the review of the above code. Telstra believes a review of the Code is important at this time to maintain relevance in the ever changing telecommunications environment.

Telstra is actively involved with the Mobile Carrier Forum and is eager to participate in consultation on the Code both individually and as part of a combined industry submission.

Please include my details as the nominated representative for Telstra.
