INTRODUCTORY STATEMENT

The *Mobile Premium Services Industry Code (C637:2011)* replaces the registered *Mobile Premium Services Industry Code (C637:2009)*.

The *Mobile Premium Services Code* sets out rules that apply to service providers in relation to the supply of Mobile Premium Services in Australia.

2011 Revision

The inaugural *Mobile Premium Services Code* was registered by the Australian Communications and Media Authority in May 2009. Two years later a review of the Code was undertaken with the recommendation of the review being that a revision was warranted. The 2011 Code revision was undertaken to clarify and streamline processes while providing greater certainty for all parties in the implementation of the Code. The 2011 revision of the Code introduced the following amendments to the registered Code:

- increased accessibility aimed at making the Code easier to read and understand. Each chapter has a summary table to direct readers to relevant provisions, in addition to the simplification and clarification of terminology used in the Code;
- additional requirements that facilitate increased clarity of advertising, specifically for online advertisements. Introduction of deeming provisions to provide additional clarity around the “sufficient proximity” requirements;
- clarification that Rules relating to advertising apply only to Premium Messaging Services and not Proprietary Network Services as these services are already regulated under the Telecommunications Consumer Protections Code;
- clear distinction between Premium Fees and Data Fees;
- clear distinction between Single Purchase Services and Subscription Services;
- stream lining of the Double Opt-In procedure which consolidates the opt-in process for non-mobile, WAP and IVR request mechanisms with the opt-in process for MO (Mobile Originating) requests to create a new single, technology neutral opt-in process;
- new requirements stipulating that specific information (STOP facility, inclusion of the term “subscribe/subscription”, content suppliers Helpline, service name) be included in subscription messages;
- a consolidated process for all Chat Services;
- new protections relating to the supply of Reverse Charge Billing Services, which had previously been exempted from the Code;
- minor changes to Helpline requirements to clarify which time zone applies to suppliers for the purposes of Helpline obligations, and to clarify IVR/staffed Helpline requirements;
- new requirements on carriage service providers that mandate the provision of quarterly Industry Compliance Reporting data to the ACMA. This data will be provided to the ACMA in accordance with metrics set out in the Code. This data will then assist the ACMA in undertaking its own Code compliance investigations; and

- Code review period amended to two years.

2014 Variation

In 2014 a Variation of the Code resulted in the following amendments:

- reference to redundant National Privacy Principle 1 in the Code's Explanatory Statement replaced with reference to Australian Privacy Principle 5, along with a new reference to Australian Privacy Principle 11;
- new drafting in Section 7 to protect customers from being charged a Premium Fee of more than 25c to opt-out of marketing messages;
- inclusion of new obligations in Sections 4 and 6 that requires CSPs and Aggregators to provide specific information on the availability of MPS barring when a customer makes an MPS related inquiry or complaint; and
- removal of industry compliance reporting requirements.

Specific details of these amendments are set out in Appendix A of the Code.

2017 Variation

In 2017, the Code underwent a further review which proposes the following Variation to be made:

- removal of the term 'Free Msg' to avoid confusion some consumers are experiencing and to improve the information communicated to consumers;
- inclusion of the option for End Carriage Suppliers to resolve complaints relating to Mobile Premium Services directly with their Customer; and
- addition of the term 'Personal Information' to align with the *Privacy Act*.

Specific details of these amendments are set out in Appendix A of the Code.

APPENDIX		63
A	VARIATION CONTROL SHEET	63

1 GENERAL

1.1 Introduction

- 1.1.1 Section 112 of the *Telecommunications Act 1997* (Cth) sets out the intention of the Commonwealth Parliament that bodies and associations representing sections of the telecommunications industry develop industry codes relating to the telecommunications activities of participants in those sections of the industry.
- 1.1.2 The development of the Mobile Premium Services Code (the Code) has been facilitated by Communications Alliance through a Working Committee comprising representatives from the telecommunications industry and consumer groups.
- 1.1.3 The Code should be read in conjunction with related legislation, including:
- (a) the *Telecommunications Act 1997* (Cth);
 - (b) the *Broadcasting Services Act 1992* (Cth);
 - (c) the *Telecommunications (Consumer Protection and Service Standards) Act 1999* (Cth);
 - (d) the *Competition and Consumer Act 2010* (Cth);
 - (e) State and Territory fair trading legislation, where relevant;
 - (f) the *Disability Discrimination Act 1992* (Cth);
 - (g) the *Racial Discrimination Act 1975* (Cth);
 - (h) any other relevant equal opportunity legislation;
 - (i) the *Privacy Act 1988* (Cth);
 - (j) the *Spam Act 2003* (Cth); and
 - (k) the *Do Not Call Register Act 2006* (Cth).
- 1.1.4 This Code should be read in the context of other relevant codes, guidelines and documents, including the:
- (a) Telecommunications Consumer Protections Code (TCP) Code (C628:2012);
 - (b) Internet Industry Code of Practice – Content Services Code (the Content Services Code);
 - (c) Telecommunications Service Provider (Mobile Premium Services) Determination 2010 (No. 1);
 - (d) Telecommunications Service Provider (Mobile Premium Services) Determination 2010 (No. 2); and

(e) Telemarketing (Do Not Call Register) (Telemarketing and Research Calls) Industry Standard 2007.

- 1.1.5 If there is a conflict between the requirements of the Code and any requirement imposed on a Supplier by statute or otherwise by law, the Supplier will not be in breach of the Code by complying with the statute or law.
- 1.1.6 Compliance with this Code does not guarantee compliance with any legislation or other laws.
- 1.1.7 The Code is not a substitute for legal advice and is not a guide to compliance with the law. A range of laws are relevant to the activities described in the Code. For example, when advertising a Mobile Premium Service a Supplier must comply with the requirements of the Code but other laws, including all applicable requirements of the *Competition and Consumer Act 2010* (Cth), will also be relevant to such advertisements.

1.2 Approval by the ACMA

- 1.2.1 This version of the Code is the result of a revision conducted during 2010 and 2011 and includes 2014 and 2017 Variations to the Code as per Appendix A.
- 1.2.2 The 2017 Variation of the Code takes effect from the date of approval by the ACMA.

1.3 Scope

- 1.3.1 The Code applies to the:
- (a) Carriage Service Providers; and
 - (b) Content Service Providers,
- sections of the telecommunications industry under section 110 of the Act.
- 1.3.2 The Code deals with the following telecommunications activities as defined in section 109 of the Act:
- (a) carrying on business as a Carriage Service Provider;
 - (b) supplying a Content Service using a Listed Carriage Service; and
 - (c) supplying goods or services for use in connection with the supply of a Listed Carriage Service.
- 1.3.3 This Code only applies to the activities of Suppliers in relation to Mobile Premium Services.
- 1.3.4 As required by section 116 of the Act, this Code does not apply to matters covered by codes or standards registered or determined under the *Broadcasting Services Act 1992* (Cth).

1.4 Objectives

- 1.4.1 The objective of the Code is to establish appropriate community safeguards and customer service requirements for Mobile Premium Services.
- 1.4.2 The objectives of each chapter are detailed in that chapter.

1.5 Code review

- 1.5.1 The Code will be reviewed every 2 years of the Code being registered by the ACMA, or earlier in the event of significant developments that impact on the Code, or as otherwise determined by Communications Alliance.

1.6 Powers of the Telecommunications Industry Ombudsman to handle complaints under the Code

- 1.6.1 Under section 114 of the Act and subject to the consent of the TIO, the Code confers on the TIO the functions and powers of:
 - (a) receiving;
 - (b) investigating;
 - (c) facilitating the resolution of;
 - (d) making determinations in relation to;
 - (e) giving directions in relation to; and
 - (f) reporting on,

complaints made by the end users of a Listed Carriage Service about matters arising under or in relation to the Code, including compliance with the Code by those industry participants to whom the Code applies.

1.7 Summary of changes relating to Reverse Charge Billing Services

- 1.7.1 A number of the key changes included in the 2011 revision of the Code relate to Reverse Charge Billing Services.
- 1.7.2 For ease of reference, the approach that was been taken with respect to the introduction of this new concept into the Code was as follows:
 - (a) Historically, Premium Messaging Services have been used to deliver content to, or otherwise facilitate interactive services for, Customers.
 - (b) A Reverse Charge Billing Service involves the use of a Premium Messaging Service solely as a payment mechanism for a Reverse Charge Phone Service. A Reverse Charge Phone Service is a reverse charge

telephone service that is not, itself, delivered via a Mobile Premium Service. Reverse Charge Billing Services and Reverse Charge Phone Services are defined in detail in chapter 2.

- (c) Reverse Charge Billing Services were not covered by the previous version of the Code (C637:2009).
- (d) This version of the Code aims to ensure that the protections in the Code apply to such Reverse Charge Billing Services so that appropriate safeguards and customer service requirements apply to such services. Other services that use a Premium Messaging Service purely to bill a product or service that is not a Mobile Premium Services are not covered by the Code. Please see the definition of Billing Only Service in chapter 2 for more detail.
- (e) As a result, this version of the Code now regulates Reverse Charge Billing Services. The Code does not regulate Reverse Charge Phone Services or Billing Only Services.

1.8 Industry monitoring

- 1.8.1 At the date of registration of the 2011 version of the Code with the ACMA, three End Carriage Suppliers (Optus, Telstra and Vodafone Hutchison Australia) undertook industry monitoring activities.
- 1.8.2 Optus, Telstra and Vodafone Hutchison Australia intend to continue with industry monitoring activities.

1.9 Personal Information

- 1.9.1 Personal information: This clause applies to Suppliers in circumstances where they are not required to comply with the Australian Privacy Principles contained in Schedule 1 to the Privacy Act.
- 1.9.2 A Supplier must ensure that a Customer's or former Customer's Personal Information is protected from unauthorised use or disclosure.
- 1.9.3 A Supplier must take the following actions to enable the clause 1.9.2 outcome:
 - (a) Storage: have robust procedures for storing its Customers' Personal Information in its possession which are followed by its staff;
 - (b) Security: have robust procedures to keep its Customers' Personal Information in its possession secure and restrict access to personnel who are authorised by the Supplier; and

4.4.6 **Double Opt-In Keywords:** A Content Supplier must:

- (a) not use a particular word as a Double Opt-In Keyword for a Subscription Premium Messaging Service if:
 - (i) the same word is used as the Double Opt-In Keyword for another Subscription Premium Messaging Service on that Short Code; and
 - (ii) the Subscription Premium Messaging Services have different Charge Periods or different charging mechanisms;
- (b) ensure that any word used as a Double Opt-In Keyword on a Short Code is not the same as any word advertised by the Content Supplier as the means of initially requesting any Subscription Premium Messaging Service on that Short Code (including the Subscription Premium Messaging Service to which the Double Opt-In Keyword will relate); and
- (c) ensure that any word used as a Double Opt-In Keyword is an expression indicating a clear and positive intention to proceed.

4.4.7 **Double Opt-In – interpreting a Customer's response to a Subscription Request Message:** If:

- (a) a Customer has sent a clear and positive request to subscribe to more than one Subscription Premium Messaging Service on the same Short Code (in the manner described in clause 4.4.1);
- (b) the Supplier has sent a Subscription Request Message to the Customer in respect to each of those Subscription Premium Messaging Services;

- (c) the Content Supplier uses the same Double Opt-In Keyword for more than one of those Subscription Premium Messaging Services; and
- (d) the Customer sends an MO Message to the Content Supplier containing that Double Opt-In Keyword,

then the Content Supplier must treat the Customer's response as a response to the most recent Subscription Request Message sent to the Customer with that Double Opt-In Keyword. A Content Supplier must never treat a single MO Message received from a Customer in response to a Subscription Request Message as a response that applies to more than one Subscription Premium Messaging Service.

- 4.4.8 **Double Opt-In - recontacting Customers:** If a Content Supplier sends a Subscription Request Message and does not receive a response from the Customer, the Content Supplier:
- (a) must only re-send the Subscription Request Message to the Customer once; and
 - (b) if the Content Supplier does choose to re-send the message in accordance with (a), must do so within 1 hour of the time that the first Subscription Request Message was sent.
- 4.4.9 **Message identification:** Any message sent by a Content Supplier as part of a Subscription Premium Messaging Service must contain the Service Name in either the body or the header of the message.
- 4.4.10 **Exceptions to expenditure updates:** A Content Supplier is not required to provide expenditure updates to a Customer pursuant to clauses 4.4.11 or 4.4.13 if:
- (a) the Content Supplier has obtained the prior written permission of the End Carriage Supplier; and
 - (b) the Customer has expressly opted-out of receiving such expenditure updates.
- 4.4.11 **\$30 expenditure updates:** A Content Supplier must send a Subscription Premium Messaging Service Customer a standard, dedicated SMS message containing an expenditure update, with no Premium Fees charged to the Customer:
- (a) once the Customer has incurred \$30 of Premium Fees as a result of using that Subscription Premium Messaging Service in a single calendar month; and
 - (b) each time the Customer incurs an additional incremental \$30 of Premium Fees as a result of using that Subscription Premium Messaging Service in that calendar month.
- 4.4.12 **Content of \$30 expenditure update:** The expenditure update referred to in clause 4.4.11 must:

- (a) inform the Customer that they have incurred \$30 of Premium Fees as a result of using that particular Subscription Premium Messaging Service in a single calendar month;
- (b) state that the Customer is "subscribed to" that particular Subscription Premium Messaging Service and/or its relevant Short Code;
- (c) contain details of the "STOP" Message, and the Short Code to which it must be sent, if that Short Code is different to the Short Code used for the expenditure update; and
- (d) contain details of the Helpline.

4.4.13 **30 day reminder notification:** If a Content Supplier has not sent an expenditure update to a Subscription Premium Messaging Service Customer under clause 4.4.11 in a particular calendar month, the Content Supplier must send the Customer a reminder notification at the end of that calendar month as a standard, dedicated SMS (with no Premium Fees charged to the Customer for the message).

4.4.14 **Content of reminder notification:** The reminder notification referred to in clause 4.4.13 must:

- (a) state the Service Name of the Subscription Premium Messaging Service;
- (b) state the cost and the basis for calculating Premium Fees for the Subscription Premium Messaging Service, including any:
 - (i) charge per MO Message;
 - (ii) charge per MT Message; or
 - (iii) charge per Charge Period, and that Charge Period;
- (c) include details of the "STOP" Message and the Short Code to which it must be sent, if that Short Code is different to the Short Code used for the 30 day reminder notification; and
- (d) include details of the Helpline.

4.5 Proprietary Network Services – Providing Service Information

The additional Rules for providing information to Customers of a Proprietary Network Service are:

- 4.5.1 **Information:** Prior to a Customer subscribing to a Proprietary Network Service that is a Subscription Service, the Content Supplier must inform the Customer in writing (which may be by letter or in any other written form such as an onscreen notice) of:
- (a) the cost of the Proprietary Network Service;

- (b) the frequency of the Proprietary Network Service, if applicable;
- (c) whether the subscription is ongoing or for a particular period of time; and
- (d) how to unsubscribe from the Proprietary Network Service.

4.5.2 **Premium Fees:** A Content Supplier must inform a Customer about the Premium Fees involved in using a Proprietary Network Service:

- (a) before the Customer first accesses the Proprietary Network Service; or
- (b) after the Customer first accesses the Proprietary Network Service but before any Premium Fees are incurred,

in a way that is clear and easily accessible by the Customer.

4.5.3 **Opt-out information:** A Content Supplier must provide readily available information to Customers about how to unsubscribe from a Proprietary Network Service that is a Subscription Service on an ongoing basis, including via:

- (a) **Supply without request:** supply a Mobile Premium Service that a Customer did not request in accordance with clause 5.1.2;
- (b) **Charge without request:** charge a Customer a Premium Fee for any Mobile Premium Service that the Customer did not request in accordance with clause 5.1.2; or
- (c) **Error message charges:** charge a Customer a Premium Fee for an error message.

An amount of 25 cents or less that:

- (i) is charged by a Content Supplier to a Customer for an MO Message that the Customer sends as part of making a request for a Mobile Premium Service in accordance with clause 5.1.2; and
- (ii) was clearly set out in all advertising for that Mobile Premium Service,

is deemed not to be a Premium Fee for the purposes of clause 5.1.1 (b).

5.1.2 **Request:** A Customer has requested supply of a Mobile Premium Service if:

- (a) in the case of a Subscription Premium Messaging Service, the Customer has requested to receive it by sending an MO Message in response to the instructions described in clause 4.4.1 (d) in accordance with the Double Opt-In process;
- (b) in the case of a Non-Subscription Premium Messaging Service that has a request mechanism contained in a marketing message sent to the Customer as a WAP Push Message, the Customer requested to receive it using:
 - (i) the request mechanism contained in the marketing message; and
 - (ii) by sending an MO Message in response to the instructions described in clause 4.3.2(c) within the last 24 hours;
- (c) in the case of a Non-Subscription Premium Messaging Service with an IVR activation request mechanism:
 - (i) where the Non-Subscription Premium Messaging Service is not a Reverse Charge Billing Service, the

Customer has made a clear and positive request to receive it using the IVR; and

- (ii) where the Non-Subscription Premium Messaging Service is a Reverse Charge Billing Service, the Customer has made a clear and positive request to be billed for the Reverse Charge Phone Service via the Reverse Charge Billing Service using the IVR;

5.1.3 **Content Supplier contracts:** Each Aggregator and End Carriage Supplier must, in all contracts it enter into with a Content Supplier for the supply of that Content Supplier's Mobile Premium Services, contractually oblige the Content Supplier to comply with the Rules and the law.

5.1.4 **Refunds for Mobile Premium Services other than Reverse Charge Billing Services:** Unless a Customer agrees to another form of payment, a Supplier must pay any refund with respect to a Mobile Premium Service (other than a Reverse Charge Billing Service) to a Customer by either:

- (a) issuing a direct credit against the Customer's current account; or
- (b) directly refunding the Customer.

5.1.5 **Refunds for Reverse Charge Billing Services:** Unless a Customer agrees to another form of payment, a Supplier must pay any refund of amounts that have been:

by either:

- (c) issuing a direct credit against the Customer's current mobile phone account; or
- (d) directly refunding the Customer.

5.1.6 **Withdrawals:** If:

- (a) a Supplier agrees to withdraw a particular amount with respect to a Mobile Premium Service from a Customer's account; and

5.1.7 **Minimum period:** A Content Supplier must not enter into:

- (a) in the case of a Mobile Premium Service that is not a Reverse Charge Billing Service, a Mobile Premium Services contract with a Customer;
- (b) in the case of a Reverse Charge Billing Service, a contract that obliges a Customer to pay for a Reverse Charge Phone Service where such amounts are triggered via use of a Reverse Charge Billing Service,

that requires the Customer to pay Premium Fees to meet a minimum contract period requirement in addition to those Premium Fees informed to the Customer pursuant to clause 4.1.3(c).

5.1.8 **WAP Push Messages:** Any WAP Push Messages sent by a Content Supplier:

- (a) as part of a Mobile Premium Service; or
- (b) to advertise a Mobile Premium Service,

must state:

- (i) the Short Code; or
- (ii) the Helpline,

for the Mobile Premium Service prior to stating the WAP website link. This clause 5.1.8 does not apply to Reverse Charge Billing Services.

- (a) an indecipherable or invalid content request; or
- (b) a message that cannot be decoded by the Content Supplier's system,

in relation to a Mobile Premium Service other than a Reverse Charge Billing Service, the Content Supplier must send the Customer a standard, dedicated, SMS error message (with no Premium Fees charged to the Customer for the message), which must:

- (d) if possible, describe the error and details of the correct format required for the message; and
- (e) include details of its Helpline.

5.1.10 **Error messages for Reverse Charge Billing Services:** If a Customer sends a Content Supplier a message that cannot be decoded by the Content Supplier's system in relation to a Reverse Charge Billing Service, the Content Supplier must send the Customer a standard, dedicated, SMS error message (with no Premium Fees charged to the Customer for the message), which must:

for that Content Supplier's Subscription Premium Messaging Services.

- (a) **No charging for resending messages:** not charge the Customer Premium Fees for any attempt to resend the message if:
 - (i) its content was of a time sensitive nature; and
 - (ii) it was not delivered within a reasonable timeframe for content of that nature;
- (b) **Limited requirement to resend:** attempt to resend the message if:
 - (i) the Customer had already paid Premium Fees for it in advance; and
 - (ii) there is no "event based" Premium Fee for that message to be sent;
- (c) **Limitations on resending where non-permanent reason for delivery failure other than a lack of Customer credit:** if the End Carriage Supplier or Aggregator notifies the Content Supplier that the reason for the delivery failure is potentially of an interim nature (other than a lack of Customer credit), only attempt to deliver the message if:
 - (i) no more than 1 attempt is made each day for 7 days after the date the End Carriage Supplier or Aggregator notified the Content Supplier of the delivery failure;
 - (ii) no more than 2 attempts are made in any 7 day period from the end of the period described in clause 5.2.2(c)(i) until the date that is 30 days after the End

Carriage Supplier or Aggregator notified the Content Supplier of the delivery failure; and

- (iii) no further attempts are made after the period referred to in clause 5.2.2(c)(ii);
- (d) **Limitations on resending where Customer credit reason for delivery failure:** if the End Carriage Supplier or Aggregator notifies the Content Supplier that the reason for the delivery failure is a lack of Customer credit, then in the case of:
 - (i) a Non-Subscription Premium Messaging Service, make no more than 2 further attempts to send the message within 7 days of such notification by the End Carriage Supplier or Aggregator; or
 - (ii) a Subscription Premium Messaging Service:
 - (A) if the Customer is unable to access the then current content of that Subscription Premium Messaging Service, make no more than 2 further attempts to send the message within:
 - (aa) each 7 day period (following such notification by the End Carriage Supplier or Aggregator) up until the end of the current Charge Period; or
 - (bb) if the Charge Period is less than 7 days, the current Charge Period; or
 - (B) if the Customer remains able to access the then current content of that Subscription Premium Messaging Service:
 - (aa) make no more than 2 further attempts to send the message within:
 - (1) each 7 day period (following such notification by the End Carriage Supplier or Aggregator) up until the end of the current Charge Period; or
 - (2) if the Charge Period is less than 7 days, the current Charge Period;
 - (bb) make no more than 2 further attempts to send the message within:
 - (1) each 7 day period (following the end of the period described in clause 5.2.2(d)(ii)(B)(aa)) up until the end of the next Charge Period; or
 - (2) if the Charge Period is less than 7 days, the next Charge Period (following the end of the period

described in clause
5.2.2(d)(ii)(B)(aa)),

- (iii) all Premium Messaging Services, make no further attempts to send the message after the time period referred to in clause 5.2.2(d)(i) or 5.2.2(d)(ii) (as relevant).

5.2.3 **Reverse Charge Billing Services to trigger charges by single MT Messages only:** A Content Supplier of a Reverse Charge Billing Service must not send multiple Billed Messages to a Customer in order to trigger a single charge on the Customer's account.

5.2.4 **Single charge:** If a Content Supplier calculates charges for a Reverse Charge Billing Service on a fee per time period basis, then:

- (a) each fee per time period is deemed to be a "single charge"; and
- (b) where the total charge for a call made by a Customer on the Reverse Charge Billing Service is made up of a number of separate charges incurred on a fee per time period basis, the total charge is deemed not to be a "single charge",

for the purposes of clause 5.2.3.

5.2.5 **Prohibition on resending where permanent reason for delivery failure:** If an MT Message sent as part of a Premium Messaging Service fails to deliver to a Customer, the Content Supplier must if the End Carriage Supplier or Aggregator notifies the Content Supplier that the reason for the delivery failure is of a permanent nature, abandon the attempt to send the message and, subject to record keeping requirements, remove the Customer's MSISDN from the Content Supplier's databases.

5.2.6 **No charges for undelivered content:** If an MT Message sent as part of a Premium Messaging Service fails to deliver to a Customer, a Supplier must:

- (a) not post any Premium Fees to the Customer's account for that failed message; and
- (b) refund any Premium Fees it has posted for that failed message.

5.2.7 **Extended period of failure to send and receive:** If a Content Supplier has not successfully sent or received any Premium Messaging Service message to or from a particular Customer on a particular Short Code for 60 days, the Content Supplier must stop contacting that Customer using that Short Code unless the Customer requests otherwise.

- 5.3.2 **Decommissioned services:**

If:

- (a) a Subscription Premium Messaging Service has been using a particular Short Code; and
- (b) that Subscription Premium Messaging Service is to be replaced with an alternative service using the same Short Code,

the Content Supplier must not automatically include a Customer of the decommissioned service as a Customer of the newly launched service unless that Customer has requested the new service in accordance with clause 5.1.2.

- 5.3.3 **Increasing prices:** If a Content Supplier wishes to increase the Premium Fees of a Subscription Premium Messaging Service, the Content Supplier must notify all active Customers of that Subscription Premium Messaging Service of:

- (a) the new Premium Fees; and
- (b) the effective date for the new Premium Fees,

at least 1 month before that effective date.

- 5.3.4 **Cost of notification:** If the message required by clause 5.3.3 is sent via SMS, no Premium Fees may be charged to the Customer for that SMS.

5.4 Proprietary Network Services – Supplying Services

- 5.4.1 **Continuation of Subscription Service:** A Content Supplier must not allow a Subscription Service that is a Proprietary Network Service to continue on an ongoing basis unless:

Rules

7.1 All Mobile Premium Services – Unsubscribe and opt-out mechanisms

The Rules on providing unsubscribe and opt-out mechanisms for Mobile Premium Services are:

7.1.1 **Reverse Charge Billing Services:** The Rules in this Chapter 7 do not apply to Reverse Charge Billing Services.

7.1.2 **Unsubscribing from Subscription Services:** If a Customer requests to unsubscribe from a Subscription Service, at any time, a Content Supplier must:

(a) stop supplying the Subscription Service (other than supplying messages or providing access that the Customer has already paid for):

(i) as quickly as possible following receipt of the request by the Content Supplier;

(ii) and in any event within 1 Business Day of receipt of the request by the Content Supplier, unless the Content Supplier is unable to stop supply within that time due to matters beyond its reasonable control;

(b) from receipt of the request to unsubscribe, not post any new Premium Fees to the Customer's account in respect of the Subscription Service unless it is actively renewed by the Customer in accordance with clause 5.1.2; and

(c) refund any new Premium Fees posted after the request to unsubscribe was received from the Customer by the Content Supplier,

unless the Customer's request is of the kind described in clause 5.1.9, in which case the Content Supplier must instead comply with clause 5.1.9.

7.1.3 **Opting-out of marketing:** If a Customer requests to opt-out from receiving mobile marketing messages in relation to a Mobile Premium Service, the Content Supplier must ensure that this:

(a) terminates the Customer's consent to receive any further mobile marketing messages in relation to that Mobile Premium Service; and

(b) results in the Customer being removed from any relevant marketing database,

unless the Customer's request is of the kind described in clause 5.1.9, in which case the Content Supplier must instead comply with clause 5.1.9.

7.1.4 **Unsubscribe fees:** A Content Supplier must not offer a mechanism which charges a Premium Fee in excess of 25 cents for:

- (a) processing a request to unsubscribe from a Subscription Service; or
- (b) any "STOP" Message; or
- (c) processing a request to opt-out from receiving ongoing marketing messages.

7.1.5 **Unsubscribe Fee Refunds:** If a Customer sends a request to opt-out of marketing messages to a Short Code that generates a Premium Fee in excess of 25c then if the Content Supplier:

- (a) has the ability to refund the Customer without the Customer providing any further information, the Content Supplier must within 5 Business Days of receiving the "STOP" message refund the Customer for the amount charged in excess of 25 cents regardless of whether the Customer has made a request for refund; or
- (b) does not have the ability to refund the Customer without the Customer providing further information, the Content Supplier must send the Customer a standard, dedicated SMS refund message (with no Premium Fees charged to the Customer for the message), which must:
 - (i) notify the Customer of the Premium Fee charged to the Customer for the "STOP" message sent;
 - (ii) include that the Customer is entitled to a refund for the amount charged in excess of 25 cents;
 - (iii) include that the Customer may request the refund by:
 - (A) utilising the Content Supplier's local or free-call Helpline; and
 - (B) any other method that the Content Supplier makes available for requesting a refund (with no Premium Fees charged to the Customer for the request);
 - (iv) include details of the Content Supplier's Helpline; and
 - (v) include the Service Name of the Mobile Premium Service.

7.2 Subscription Premium Messaging Services – Unsubscribe and Opt-Out Mechanisms

The additional Rules on providing unsubscribe and opt-out mechanisms for Subscription Premium Messaging Services are:

- 7.2.1 **"STOP" Messages for Subscription Premium Messaging Services:** A Content Supplier of a Subscription Premium Messaging Service must allow Customers to unsubscribe from the service and opt-out of associated marketing messages by:
- (a) entering the word "STOP" in a message sent from the Customer's handset to a Short Code or destination number for the Subscription Premium Messaging Service; and
 - (b) where practical, allowing the "STOP" Message described in (a) to be sent as a reply to a message sent as part of the Subscription Premium Messaging Service.
- 7.2.2 **"STOP" Messages:** Subject to clause 7.2.3, a Content Supplier must ensure that a "STOP" Message:
- (a) sent to a Short Code terminates:
 - (i) all Subscription Premium Messaging Services that use that Short Code in accordance with clause 7.1.2; and
 - (ii) all marketing messages sent to the Customer's mobile phone as part of those Subscription Premium Messaging Services in accordance with clause 7.1.3; and
 - (b) sent in response to a marketing message in relation to a Subscription Premium Messaging Service results in the Customer opting-out of marketing in relation to that Subscription Premium Messaging Service in accordance with clause 7.1.3.
- 7.2.3 **Multiple services using same Short Code:** If:
- (a) multiple Subscription Premium Messaging Services use the same Short Code; and
 - (b) a "STOP" Message expressly identifies which particular Subscription Premium Messaging Service the Customer wishes to unsubscribe from,
- the Content Supplier may unsubscribe the Customer from only that particular Subscription Premium Messaging Service if:
- (i) the "STOP" Message is in the format "stop <service name>" or "<service name> stop"; and
 - (ii) the "<service name>" identified in the "STOP" Message unambiguously matches a particular Subscription Premium Messaging Service.
- 7.2.4 **Wording of "STOP" Messages:** A Content Supplier must treat any message sent to a Short Code containing the word "stop" (other than a message sent as part of a Chat Service where the word "stop" appears in combination with other words in the ongoing dialogue between the chat participants) as a "STOP" Message for that Short Code.

7.2.5 **Unsubscribe confirmation messages:** Whenever a Customer unsubscribes from a Subscription Premium Messaging Service the Content Supplier must confirm:

- (a) as soon as possible; and
- (b) in any event, within 1 Business Day of receipt of the request (unless the Content Supplier is unable to do so within that time due to matters beyond its reasonable control),

by standard, dedicated SMS message (with no Premium Fee charged to the Customer for the SMS) that their request to unsubscribe has been acted upon.

7.2.6 **Content of unsubscribe confirmation message:** The confirmation message described in clause 7.2.5 must:

- (a) include confirmation that the Customer has unsubscribed from the Subscription Premium Messaging Service or Subscription Premium Messaging Services; and
- (b) state if the Customer will still receive messages or access that the Customer has already paid for.

7.3 Proprietary Network Services – Unsubscribe and Opt-Out Mechanisms

The additional Rule on providing unsubscribe and opt-out mechanisms for Proprietary Network Services is:

7.3.1 **Unsubscribe from Proprietary Network Services:** A Content Supplier of a Proprietary Network Service must allow Customers to unsubscribe via:

- (a) a website; or
- (b) the Proprietary Network Service itself.

Chapter 8 – INDUSTRY COMPLIANCE REPORTING	Deletion of Chapter 8	<p>The ACMA conducted a review of industry reporting requirements in 2014 as part of its commitment to red tape reduction. As part of this review, industry was asked to consider the ongoing utility of the current MPS Compliance Reporting regime, noting that the current compliance reporting obligations were established when MPS was generating significant consumer detriment. TIO complaints statistics indicate that compliance rates with Code requirements over the past eighteen months have been consistently high, while complaints about MPS remain at only 1% of total industry complaints.</p> <p>Accordingly the Working Committee has removed the MPS Code Compliance Reporting requirement.</p>
APPENDIX A – INDUSTRY COMPLIANCE REPORTING FORM	Deletion of Appendix A	The previous Appendix A set out the format for reporting on Compliance Monitoring, the obligation for which exists in Chapter 8. The previous Appendix A is no longer applicable following the deletion of Chapter 8.
