Dear Colin,

RE: Automatic sunseting of legislative instruments—Digital Cordless Communications Devices (PHS Devices) Standard and the Radiocommunications (Cordless Telephone) Standard

Communications Alliance would like to thank the ACMA for the opportunity to comment on the *Automatic sunseting of legislative instruments— Proposal to allow the Radiocommunications (Digital Cordless Communications Devices – PHS Devices) Standard 2007 to 'sunset' and to repeal the Radiocommunications (Cordless Telephone) Standard 2008* Consultation Paper.

Communications Alliance supports the ACMA view that these standards no longer form a necessary part of the legislative framework and that it is appropriate to allow the PHS Standard to sunset and to repeal the Cordless Telephone Standard before the end of 2017.

If you have any questions with regards to this response, please contact Mike Johns on (02) 9959 9125.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'John Stanton'.

John Stanton
Chief Executive Officer
