

WC100 : One Way Emergency Calls

DRAFT Terms of Reference

The **WC100 : One Way Emergency Calls** Working Committee has been established to perform an area of work identified by the Network Reference Panel (NRP).

Specifically, the Working Committee is to:

- consider the industry treatment of an emergency call made on mobile Customer Equipment with a service that uses a SIM (or equivalent) that is not intended for voice telephony (e.g. a 'data only' SIM);
- draft a new Guideline on One Way Emergency Calls;
- Liaise with the Operations Reference Panel on any proposed edits of:
 - the C536:2020 **Emergency Call Services Requirements** Code and
 - the C555: 2020 **Integrated Public Number Database** Code;
- Liaise with WC94 for possible edits as part of its revision of AS/CA S042.1:2020;
- Maintain alignment with any relevant international specifications; and
- Aligns with the format of the current Communications Alliance template.

Primary deliverables

- G6nn:2021 **One Way Emergency Calls** Guideline
