WC96 : Mobile Location Revision

Terms of Reference

The **WC96 : Mobile Location Revision** Working Committee has been established to perform an area of work identified by the Network Reference Panel (NRP).

Specifically, the Working Committee is to revise parts 1, 5 and 6 of the G557 *Location Information for Emergency Calls* Guidelines:

- G557.1:2019 *Location Information for Emergency Calls Part 1: General* Guideline

- G557.5:2014 *Push Mobile Location Information (MoLI) Interface To Enhanced Calling Line Identification System (ECLIPS) Specification* Guideline; and

- G557.6:2019 *Advanced Mobile Location (AML)* Guideline

to:

- Update processes for alignment with current industry processes.

- Update or remove reference to superseded technology or systems e.g. ECLIPS.

- Include mention of 4G mobile technology in G557.5.

- Include mention of international inbound roaming e.g. in relation to possible support of international CLI in G557.5.

- Update G557.6 to provide additional information if required on the various requirements for implementation of AML by Mobile Carriers e.g. specific data capacity requirements in a Mobile Carrier's network to support data transactions between handsets and Google/Apple servers for AML computation in the Assisted GPS scenario.

- Update G557.1:2019 to reflect the current status of the parts of G557 e.g. G557.5, G557.6 and the recent update to G557.4:2020 (incorporating variation 1/2020) *Mobile Location Information (MoLI) Processes for Emergency Calls and Rescue Coordination* Guideline.

- Maintain alignment with any relevant international specifications.

- Maintain consistency with the format of the current Communications Alliance template.

Primary deliverables

- A revised G557.1:2020 *Location Information for Emergency Calls Part 1: General* Guideline

- a revised G557.5:2020 *Push Mobile Location Information (MoLI) Interface To the Emergency Call Person* Guideline (or some similar renaming of G557.5:2014).

- a revised G557.6:2020 *Advanced Mobile Location (AML)* Guideline.

Supporting deliverables

- Nil.
