

WC97 : HFC RF Egress

Terms of Reference

The **WC97 : HFC RF Egress** Working Committee has been established to perform an area of work identified by the Network Reference Panel (NRP).

Specifically, the Working Committee is to revise the ACIF G545:2000 **HFC Network RF Signal Egress Monitoring** Guideline to:

- Update processes for alignment with current industry processes.
- Update or remove reference to superseded requirements, technology, systems, or network ownership.
- Maintain alignment with any relevant international specifications.
- Maintain consistency with the format of the current Communications Alliance template.

Primary deliverables

- a revised G545:2021 **HFC Network RF Signal Egress Monitoring** Guideline.

Supporting deliverables

- Nil.
